## Ingredient Science & Formulation Breakdown

BUNIQUE addresses these pain points through a dual-action approach:  
**Structural Rebuilding and Sealing Technology.**

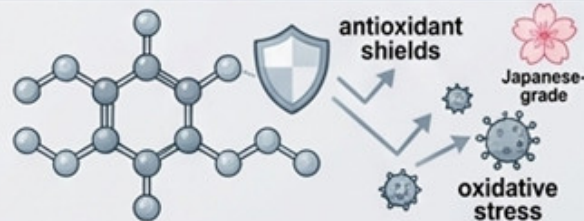

### Hydrolyzed Keratin

Penetrates the cortex to fill in "gaps" in the hair fiber, restoring strength and elasticity.

### Ubiquinol (CoQ10)

A premium Japanese-grade antioxidant that protects hair from oxidative stress and aging.

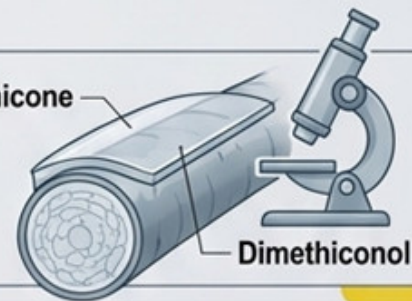

### Sodium PCA

A high-performance skin-identical ingredient that pulls moisture from the air into the hair.

### Advanced Silicones

A blend of Amodimethicone and Dimethiconol provides a "weightless" slip and heat protection.

#### Amodimethicone

### Behentrimonium Chloride

Neutralizes the static charge of damaged hair, ensuring an ultra-smooth, frizz-free finish.

# Perfect Your Routine
