

# **Unlock the Potential of Professional Hair Care with BUNIQUE**

A photograph of a white ceramic vase filled with pink cherry blossoms, set against a soft, warm-toned background. The vase is positioned on the left side of the slide, and the flowers are in full bloom, with some buds still visible. The lighting is soft, creating a gentle shadow of the flowers on the wall behind them.

System**

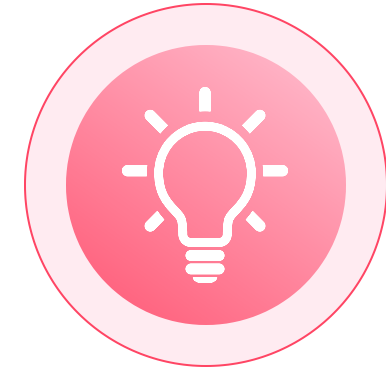

# The BUNIQUE System

**Innovative Approach:**  
Bridging Beauty and  
Technology

**Core Technology:**  
The Science Behind  
Beauty

**Sleek & Curly:**  
Dual-Action Capabilities

# Innovative Approach

01

## Advanced Formulation:

Formulated in Japan, BUNIQUE uses cutting-edge science for hair transformation.

02

## High-Performance Results:

Achieve stunning straight or beautifully defined curls, all while protecting hair health.

03

## Precision Engineering:

Each product is meticulously crafted for salon-quality performance.

# Core Technology

| pH Balancing Tech | Our Neutralizing Cream (Agent B) instantly closes the cuticle and locks in the new structure with Pro-Vitamin B5. |

Feature	Benefit	Description
Cysteamine Formula	A gentle yet powerful bond-reshaping agent that provides a safer alternative to traditional harsh chemicals.	Safe Restructuring
Keratin Infusion	Hydrolyzed Keratin penetrates deep into the hair fiber to protect, strengthen, and provide a mirror-like shine.	Superior Strength
Elasticity Control	Specifically tailored formulas for damaged, normal, and resistant hair types.	Diverse Formulations

# Sleek & Curly

## **Straighten with Ease:**

Achieve sleek results without sacrificing hair integrity.

## **Define Beautiful Curls:**

Our formula offers options for soft, bouncy curls.

## **Health First:**

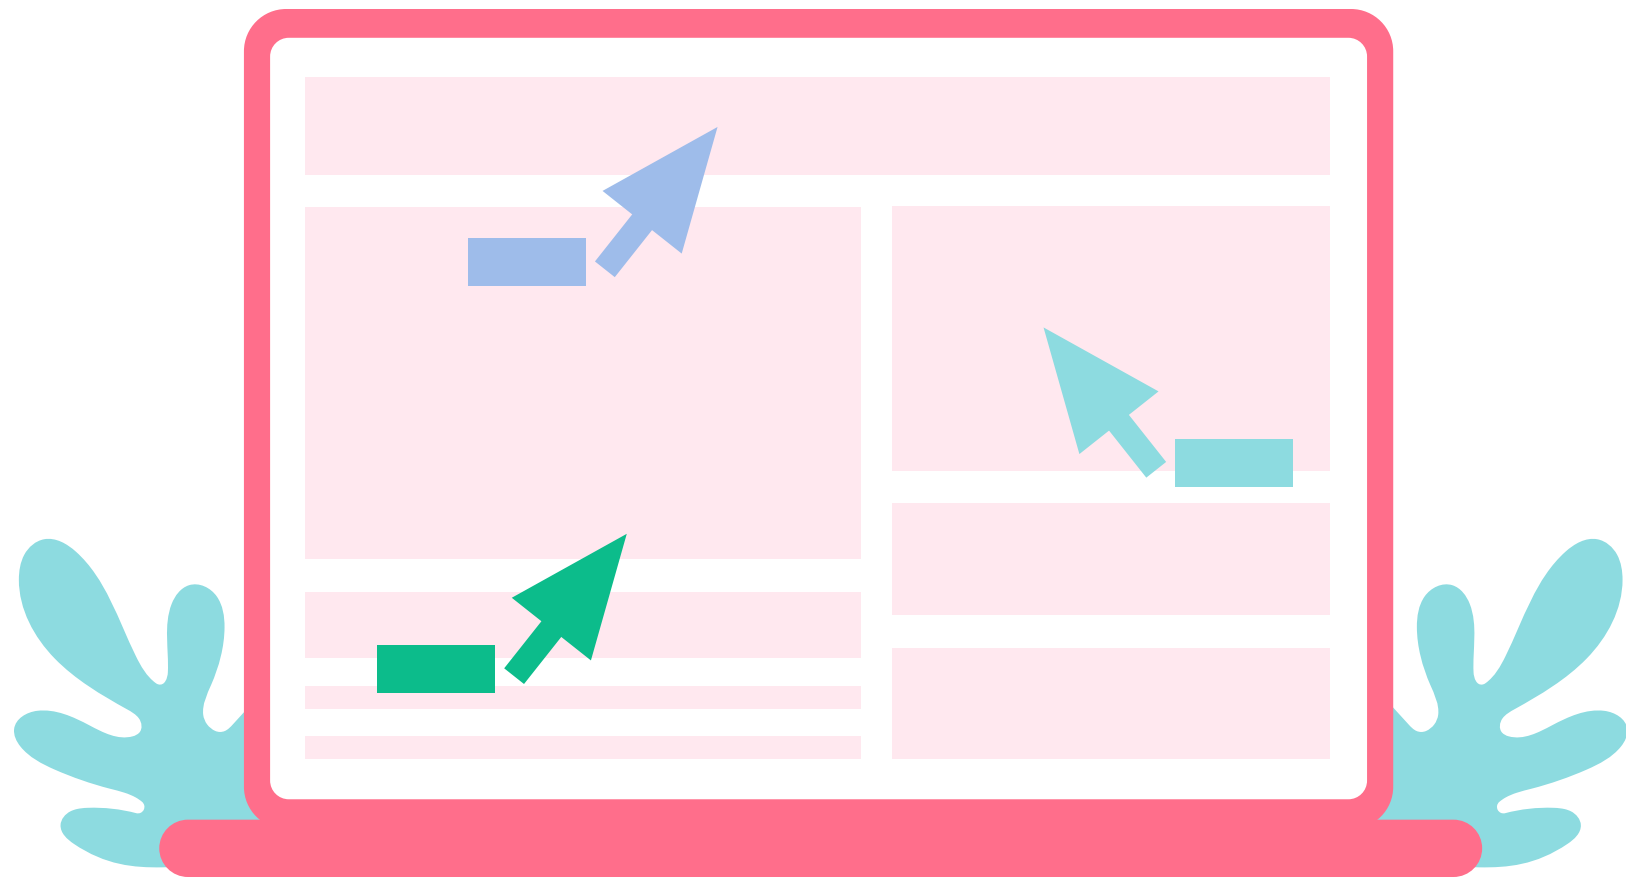

Protects and nourishes hair during every process.

02

# Product Lineup

# Product Lineup

No. 1 | Smoothing Cream (Agent A)

No. 2 | Neutralizing Cream (Agent B)

The foundation of hair transformation. This cream focuses on intense softening and bond processing while maintaining the integrity of the hair fiber.

**The foundation of hair transformation. This cream focuses on intense softening and bond processing while maintaining the integrity of the hair fiber.**

**Precision:**

Targeted processing times (10–30 mins) based on hair condition.

**Protection:**

Steartrimonium Chloride acts as a high-tier conditioning agent during chemical processing.

## No. 2 | Neutralizing Cream (Agent B)

A high-performance stabilizer that re-bonds disulfide bonds rapidly for superior shape retention.

### **Restore:**

Enriched with Panthenol to prevent chemical dehydration.

### **Finish:**

Ensures long-lasting smoothness or bouncy, defined curls.
